NAME _____ V: A / B TEACHER: _____

1. **READ** THE TEXT AND **ANSWER** THE QUESTIONS.

The continents

On a globe, continents are the easiest things to spot. A continent is a large solid area of land. Earth has seven continents. In order from largest to smallest, they are Asia, Africa, North America, South America, Antarctica, Europe, and Oceania. Sometimes people think of Europe and Asia as a single continent called Eurasia.

The continents have different kinds of weather, landscapes, and populations. For instance, Antarctica is icy and has very little plant and animal life. Africa, though, tends to be very warm and has a great variety of plants and animals.
