c. I *must* dress up / I *have to* dress up.

d. There was plenty of time *so I didn't need to hurry* / *so we needn't have hurried*.

3. Read the text bellow about preparing for an interview. Choose the correct modal verb when asked to. More than one answer may be possible.

APPEARANCES COUNT.

First of all, clothes. You **must / need** to look smart. You **needn't / mustn't** wear your most formal clothes, but you **don't have to / mustn't** as if you've just got out of bed.

Arrive on time. You **need to / must** allow more time than you think, in case there are unexpected hold-ups.

You **have to / should** do everything you can to prepare. You **must / should** think of a few questions to ask about the company.

Job advertisements normally say that you **must / should** provide references when applying for a job. If you haven't already sent these, take them to the interview. You **have to / should** have extra copies of your CV with you.

If you are offered the job, you **must / have to** try to find out anything you **need to / needn't** do before you start. For example, I expect you **will have to / should** have a medical examination. I remember I **must / had to** have one for the last job I went for.
